Strengthening our Civil Society for the Common Good

The Sydney Alliance is a new kind of citizens' coalition whose mission is to provide our community with a voice to express our common values and aspirations for a fair and just Sydney. The Alliance is broadly based across religious organisations, community organisations and unions establishing relationships that respect diversity while building a cohesive society. The Alliance is a non-party-political organisation. Its primary purpose is the ability to act for the common good, to achieve social change and peace building in our communities.

Participating organisations are encouraged to strategically select leaders to attend the Six Day Advanced Training course. This course will:

- refine and shape their understanding of themselves and their role as leaders
- equip them with the understanding and skills necessary to implement strategies to strengthen their organisation to more effectively achieve its purpose
- develop leaders within their organisation and grow co-operative relationships within their organisation and with potential partners in other organizations.
- put principles into practice at a Sydney Alliance action during the 6 days
- Set strategic objectives, develop achievable plans and then mobilise the human and other resources necessary to carry out the plan.

The training team will include experienced trainers and organisers from the local Sydney Alliance team and guest trainers from overseas. Details will be forwarded early next year with information regarding the international trainer.
